

Overview of cleaners and sealant remover

Drei Bond	Application properties
Cleaner	Drei Bond Cleaner is highly effective in cleaning metallic and non-metallic surfaces until they are free of grease, oil and dirt residues. Evaporates fast in seconds. Specially designed for cleaning surfaces that are to be bonded and/or sealed. Contains solvent.
Cleaner 3200	Drei Bond Cleaner 3200 contains no dioxolane and is highly effective in cleaning metallic and non-metallic surfaces until they are free of grease, oil and dirt residues. Evaporates fast in seconds. Specially designed for cleaning surfaces that are to be bonded and/or sealed. Contains solvent.
Super Cleaner	Drei Bond Super Cleaner is highly effective in removing cured sealants, adhesives, and sealant residues from metallic and some non-metallic surfaces. Removes oils, grease and dirt. Specially developed for cleaning bonded or dismantled parts. Sealant residues can be removed after a short exposure time of approx. 5-10 minutes. Contains solvent.
